OPINION OF AN EXPERT.

Mrs. Mary B. Welch, Teacher of Domestic Economy at State University of Iowa.

"My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part-front as well as rear-but as a result of its superior ventilation, the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its best juices. I have found, also, that the consumption of fuel in this range is given amounts of work, is more than ten and other."

MRS. MARY B. WELCH.

that the United States Circuit Court for the Eastern District of Louisiana, under the orders of which we hold our appointment, were compelled to make any day to any complaint of any employee of the Texas and Pacific Railway, the employees of the Texas and Pacific have no redress. The grievances since the receivers were appointed, and the court will enter into the same. The railroad has made by parties preferring their grievances.

Dallas, Tex., March 11.
Receiver Texas & Pacific Railway.

Powdery on Brown's Refusal.

PHILADELPHIA, March 12.—Referring to the strike on the Gould system, Grand Master Workman Powderly of the Knights of Labor said last evening: "Patriot Assembly 101 has not appealed to the General Executive Board for advice or assistance, and the master is in their hands as yet. We have had their letter, but have not yet received any. We telegraphed the Executive Committee of District Assembly 101 for information, and the reply came in telegrams. Thinking that we might be instrumental in effecting a settlement, the following telegram was sent to the master: 'To the Receiver of the Texas & Pacific Railway.'

[Mr. Powderly here quoted his telegram to Receiver Brown and the reply thereto, as given above.]

"In an editorial the Leader advised us to go to St. Louis to intercede for the strikers. You can see by the telegrams I have shown that it was my intention to bring about a settlement if possible. Mr. Brown has not yet replied. We telegraphed the General Executive Board of the Knights of Labor to secure a settlement of the pending difficulties.

"I expect that the Knights will be instrumental in effecting a settlement if possible. We are to go to St. Louis to intercede for the strikers. The Knights have some suggestion or remedy to offer which a termination of this trouble could be reached, and I must confess that his was my idea.

"Our guard has arranged to have a committee go to the scene of action, but if those in authority will not meet with them, no good can come from any interference on our part."

IN TEXAS.
Strikers at Denison Refuse to Be Discharged.—A Coal Flame Threatened.

By Telegraph to the Post-Dispatch.

DENISON, Tex., March 12.—There are no new developments except the refusal of the charged employees to be discharged from the railroad company. The telegram from the railroad company containing the notice of discharge, several cars containing farm implements now standing in the yards, which the farmers need, and the fact that the men are all disengaged, consequently the farmers who are Alliance men, and the allies of the Knights, begin to feel the effects of the strike. Railroad men were very much disengaged at their enforced idleness and are glad to return to work.

Probable National Strike.

By Telegraph to the Post-Dispatch.

DALLAS, Tex., March 12.—The strikers here and all along the line are firm, if not more so, than yesterday. It is attributed to the report that it is coming to the world that the combination, bankers, manufacturers and politicians on the Gould lines will join them rather than see the railroad win, and that in case of absolute necessity that the entire nation will be compelled to act.

"The strike is spreading, and is about to become a general national strike. The railroad authorities are continuing to insist that the men are further apart than ever. The merchants are restless under the strike. The Sun, a daily paper, a Knights of Pythias, based on the miners of the Texas and Pacific, who have been working for a few days ago on the roads that the mines were to be closed, to-day turned over the mines to the force, which has organized a company of its own to work them.

All quiet at Marshall.

By Telegraph to the Post-Dispatch.

MARSHALL, Tex., March 12.—There is no change in the attitude of the Knights of Labor or the railroad officials at this place. All trains are on time, both freight and passengers. United States Marshal Raynor came in last night, and the yards are at the strike. Local officials are on the duty. A poster from New Orleans calling for good workmen for the roads and yards had been received, and has been accepted by the Knights of Labor who have a majority of the men in the yards. They have entirely abandoned their work during the strike. The men of the Texas and Pacific are in consultation with Pendergast, the railroad attorney.

Passenger Trains Delayed.

By Telegraph to the Post-Dispatch.

AUSTIN, Tex., March 12.—There are no new developments in the strike at this point, nor on this division of the railroad. All employees connected with the freight department have been suspended. Some passenger trains have been held from two to three days daily for four days, owing to defects in track north and east of here. Superintendent J. H. Morris, who has been in charge of the strike, has summarily dismissed all employees who have entirely abandoned their work during the strike. The men of the Texas and Pacific are in consultation with Pendergast, the railroad attorney.

Strikers Arrested.

By Telegraph to the Post-Dispatch.

MARSHALL, Tex., March 12.—The strike is quiet here. There is no change whatever in the situation since yesterday. Candidates for Mayor spoke here last night, when it was developed that the labor question would figure largely in local politics. The strikers claim that they have won two-thirds of the case, and longer if necessary. Advices from Denison say that a non-striking railroad has been ordered to leave town by the strikers.

Section Hands Strike.

SPARTA, Tex., March 12.—The section hands on both sections struck Wednesday evening. They demand \$1.50 per day. The hands of the Texas and Pacific have struck.

No Change.

Strikers Arrested.

By Telegraph to the Post-Dispatch.

AUSTIN, Tex., March 12.—The news arrived late last night that three strikers had been arrested at Big Springs by virtue of warrants issued by the United States Court. The men are charged with interference with the property in the hands of the Court.

Section Hands Strike.

SPARTA, Tex., March 12.—The section hands on both sections struck Wednesday evening. They demand \$1.50 per day. The hands of the Texas and Pacific have struck.

No Change.

By Telegraph to the Post-Dispatch.

PALESTINE, Tex., March 12.—The condition of the strike is unchanged here. Business is at a standstill.

QUIET BUT FIRM.

Condition of the Strike at Various Points in Missouri.

By Telegraph to the Post-Dispatch.

SHAWNEE, Mo., March 12.—Quietness still reigns in this city and no attempts have been made by the railroad company to move trains. The committee of business men, who visited the Executive Board of the Knights of Labor, assured them that the railroad would not move them. The Board telegraphed to Mr. Hoxie asking him to arrange a meeting between the master and the Knights of Labor. An Executive Board of the Knights of Labor, Atchison, met last night that there were about 600 people present, and the strike was to be continued for some time, else to be waiting for the trial. Resolutions were passed stating that the other officials were not in sympathy with the strike. The strikers said they would offer physical resistance to the road if it should be moved. The company will be unable to get men to take the trains out.

Labor Commissioner Kochitsky and Mr. D. W. Marmaduke are in the city this morning and will leave for St. Louis to-day.

Killed the Engines.

By Telegraph to the Post-Dispatch.

DE SOTO, Tex., March 12.—Yesterday morning about 300 strikers entered the round-house and stopped all the engines there, and last night about 100 men entered again and further disabled the engines. The cause of this action was the taking out of a freight

train early yesterday morning, which they consider a violation of the agreement.

The officials that the officials that no effort to move freight would be made till the blockades were taken.

The road is receiving no freight. All is quiet.

THE Missouri Pacific failed to move its freight trains yesterday.

SENATOR WILSON's proposed increase in postal rates has been beaten, and the business interests of the country feel accordingly relieved.

THE ballot-box stuffers who failed to listen to the still, small voice of conscience will be called on to hear the still, small voice of the subpoena.

RECEIVER BROWN is evidently the last man in the world who should be placed in charge of an enterprise employing large bodies of laboring men.

MR. HOXIE is admittedly one of the ablest railroad managers in the country, but he has not solved the problem of operating a railroad without employees.

HOW DOES it happen that Mr. GOULD always sells from our shores in his yacht, the *Atalanta*, just when a big strike is about to be precipitated along his lines?

THE employees of one of the shoe factories have sent to the Post-Dispatch a check for \$20, the result of a twenty-five-cent subscription for the benefit of the strikers. The Post-Dispatch will take care of that and all similar contributions, and see that they are handed over to the proper parties.

NO EVENING paper in the history of journalism has ever furnished its readers with so full and costly a telegraph service as the Post-Dispatch has placed at the disposal of its readers during the strike. Day rates on specials from Texas are high, but there is nothing which has occurred at any point along the line which has not been reported in full without regard to expense and published in the Post-Dispatch.

THERE is war in New York City between Mayor GRACE and ROLLIN SQUIRE, Commissioner of Public Works. Mr. SQUIRE asks the transfer of an unreasonably large sum of money to the salary account, and the Mayor indignantly refuses to grant the request. It will be remembered that Mr. SQUIRE is the celebrated obituary bard whose astonishing poetry on the death of Gen. GRANT was displayed on a public building in New York and afterward removed by order of the proper authorities. This, however, did not displease the gifted author, who sagely reflected that the course of true poetic genius is very often rough, and that many a gifted rhyme is engaged in a hard struggle to pay his board bills with the prospective realization of posthumous fame. But it is disheartening to behold a soaring and irrepressible genius like the elegiac SQUIRE or the electric ROXIES entangled in homely and vulgar financial difficulties. Such gifted stragglers prove to the world that republics are ungrateful and forbearing.

ATTORNEY-GENERAL GARLAND has decided to sue the Pacific Roads for about \$900,000 which they should have paid to the Government under the Thurman act, but of which they have defrauded the Government by charging their illegal pool payments of \$85,000 per month as part of their legitimate operating expenses. The managers of these roads were heavy stockholders in the Pacific Mail Steamship Company, and the subsidy of \$85,000 per month which they paid to that company for maintaining rates looks like a swindle upon the railroad stockholders who were not Pacific Mail stockholders. But there can be no question about its being a swindle upon the Government. In the first place, it was an illegal contribution to an illegal combination against public policy, a payment on a contract which the courts would have pronounced unlawful and void, and it follows that the re-

porting of these sums, amounting to millions in the aggregate, as so much paid on account of legitimate operating expenses, was a deliberate attempt to defraud the Government of the percentage due it on the amount of those payments under the Thurman act.

THE WAY TO RESUME.

St. Louis is to-day as effectually cut off from the greater part of her commercial territory as if she were environed by a besieging army. For nearly a week business intercourse with four great States and several minor States and Territories has been practically suspended by the failure of the Gould line managers to operate their roads. Their failure is costing this city many thousands of dollars or direct loss every day and consequential losses that are incalculable. It cannot continue much longer without stopping nearly all of our great industrial establishments, filling the streets with multitudes of unemployed workmen and depriving hundreds of thousands of people of the means of living.

How much longer shall this state of things continue? The Gould managers have promised to resume operations as soon as they can resume in their own way and on their own terms. They have tried their way and it has failed, as there is every prospect that it will continue to fall to-day, to-morrow and until a different spirit animates them to try some other way. If it were a question between them and their employees only, they might be conceded the right to resume in their own way or not at all. But the public that devotes them agents of the public welfare---that clothed them with the power of eminent domain for a public service---that public has a right to insist that they shall perform that service and find a way to resume it without inflicting further loss on the general public by an obstinate adherence to such means and methods only as will enable them to conquer and crush the Knights of Labor.

THE Senate and President might find it to resume. If the attempt were defeated by unlawful violence manifested in over acts the power of the Government could then be invoked. But as this is not the case it devolves on the railroad managers to make such terms as will procure the necessary labor and start the trains. The private citizen or corporation can engage in a protracted lookout or contention with strikers, but a quasi-public corporation charged with a public service and liberally paid for performing it, has no right to engage in a war with organized labor at the public expense, when such a war can be avoided or postponed and finally settled by reasonable concessions, or by agreeing to submit all differences to arbitration.

A SUGGESTION.

The answer of Receiver BROWN of the Texas and Pacific road to the overtures of Grand Master Workman T. V. POWDERLY of the Knights of Labor, and the position taken by Mr. HOXIE of the Missouri Pacific system make it certain that the existing strike is to be a test of strength between the opposing organizations.

In this emergency we venture to make a suggestion which will help many valuable interests without injuring any.

That is that the field of controversy be narrowed down to the territory occupied by the lines in controversy.

In other words, that the strike should not extend to the East End of the Bridge and Tunnel, but should stop at the West End, and that freight traffic over the bridge should be resumed for the benefit of all roads which are not in the controversy.

We make this suggestion in the public interests and ask that it be considered on its merits by all whom it may concern.

THE Demands of Labor.

Speaking of Mr. T. V. POWDERLY, and of his opinions, as expressed in the interview of last Wednesday, the New York World says:

When the interests of labor are placed in charge of men of this character they are very sure to count for what they are worth. He would make strikes effective by seeing to it that they only occurred for good cause, and he evidently possesses the saving knowledge that it is not wise to spoil the market for any product of labor by suddenly adding to the price of the same. Intelligence would recently be given that the existing strike, which leads to a fair division of the joint returns from capital and labor improves the working condition, and the willingness to yield to the dictates of that intelligence renders arbitration possible. If Mr. POWDERLY is right in saying that employers will meet the workingmen half way, and if he and such as he can eventually control their organizations, the outlook is very favorable one.

THE Post-Dispatch will join with the business men of St. Louis in demanding that the Gould system shall resume its customary, normal, regular and legitimate business of transporting freight. At present the business men of St. Louis are subjected to serious loss and injury because the management of the Gould system can not devise a plan of operating these lines which will give them an adequate and sufficient force of men. We do not pass any opinion on the merits of the controversy between the managers and the men. We state the fact candidly and impartially, without any feeling or prejudice, when we assert that the sad result of that controversy is that the lines are not operated.

A BARRISH landlord has been convicted, after a fair trial, of voting early and often, having deposited three ballots on the same day for the same man. He had three qualifications, and under the English law might have deposited three votes in three distinct boroughs; but he saw proper to vote three times in one borough.
